Education — HKU SPACE, Associate of Business Administration (Year 1)

Background check — Passed Sexual Conviction Record Check (SCRC); qualified to instruct children and youth

GENERAL SKILLS

- **Languages:** Cantonese (native), Mandarin, English
- **Communication:** Clear written and verbal communication; comfortable coordinating with clients, stakeholders, and teams
- **Project delivery:** End-to-end ownership from concept to deployment, testing, and iteration
- **Learning:** Self-directed, fast adopter of new tools and workflows
- **Teaching & content:** Experience designing engaging lessons and digital materials for youth and adult learners
- **Work style:** Punctual, reliable, independent, and detail-oriented

AI & TECHNICAL SKILLS

LLM Applications & Prompt Engineering

- Proficient with cloud LLMs: ChatGPT, Grok, Claude
- High-precision prompts for business, education, and content use cases
- Workflow integration: copywriting, analysis, teaching material generation
- Model selection based on task requirements and limitations

Local LLM Deployment & Private AI

- Hands-on Ollama deployment without external API dependency
- Open-source models: Qwen 2.5 4B, Llama series; hardware-aware tuning
- Hugging Face ecosystem; quantization and inference parameter tuning
- Fully offline processing for privacy-sensitive use cases

AI Image Generation & Visual Design

- Midjourney, Grok Image 2, and related image tools
- Brand-consistent visuals; advanced parameters and iterative refinement

AI Video Generation & Post-Production

- Video generation models: Seedance, Sora, Pixverse
- Full pipeline: concept, storyboard, generation, and editing
- Cost-efficient commercial promo videos vs. traditional production

AI-Assisted Development & Deployment

- OpenClaw and automation workflow architecture
- Cursor & VS Code vibe coding for full-stack development
- Authoring Cursor Rules and Agent Skills for custom AI coding workflows
- Rapid build, test, and deploy (Cloudflare Pages, static sites)
- Code review, iteration, and debugging best practices

Voice Synthesis & AI Narration

- ElevenLabs for multilingual, expressive voiceovers
- Integrated into video and automated content pipelines

AI Music Generation & Production

- Suno for AI composition, arrangement, and production
- Multi-genre output: EDM, Lo-fi, Country virtual artist personas
- End-to-end workflow: creation, metadata, and Spotify distribution

AI PROJECT EXPERIENCE

Personal Project · Automated YouTube Video Engine

- Built a fully automated YouTube production and upload engine with OpenClaw
- Scheduled uploads via YouTube Data API; integrated free stock media APIs
- AI-driven scripting and editing; ElevenLabs narration for hands-free operation at low cost

Personal Practice · Local LLM Private Deployment

- Deployed open-source LLMs locally with Ollama (Qwen 2.5 4B on consumer GPU/RAM)
- No external API calls; quantization to reduce hardware requirements
- Demonstrates end-to-end capability from cloud to on-premise AI

GF Medicare Beauty Salon · AI Promo Video Production

- Commissioned to produce AI-generated promo videos for social media marketing
- Full AI-assisted pipeline: concept, visual style, generation, and post-production
- Deliverables approved and published on official commercial channels

YWCA · Interactive Learning Website

- Independently built and deployed with vibe coding: interactive practice modules, media tools, content library, progress tracking
- Zero hosting cost, mobile-responsive; positively reviewed by social workers

Personal Project · Spotify AI Music Channel (Suno)

- Operate a Spotify channel publishing AI-generated music produced with Suno
- Multi-genre releases: EDM albums, Lo-fi tracks, and Country virtual artist personas
- Full pipeline from composition and production to streaming distribution

Personal Project · Neon Depth Web Game Demo

- Designed and developed an original browser game playable online (0e099457.cyber-6yk.pages.dev)
- AI-assisted game design, visuals, and coding; cross-media creative delivery

STRENGTHS

- Exceptional ability to learn and adapt to new AI tools quickly
- Integrates multiple AI tools to match project goals
- Strong independent worker; concept to delivery in one flow
- Dual capability in cloud and local AI deployment
- Balances practicality with polish; professional-grade output
- Stays current with AI industry trends and new releases
